PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in **C#**, **.NET**, **SQL Server**, and **AngularJS**, dedicated to creating robust solutions that optimize processes and enhance user experience. Passionate about working in teams and solving real-world problems with technology.

PROFESSIONAL EXPERIENCE

General Claims – Fullstack Developer Junior
September 2024 – Present

- **Squad Workflow:**
    - Development and implementation of features for a claims management solution.
    - Bug fixing, debugging, and continuous system improvements.
    - Logging and completing tasks using **ClickUp**, tracking progress and time, and creating Pull Requests with **Azure DevOps**.
    - Database management with **Microsoft SQL Server Management Studio** and API testing with **Postman**.
    - Version control and collaboration using **Git** for managing codebases.
- **Squad Standard:**
    - Contributed to multiple projects focused on system enhancements and new feature development.
    - Worked on bug fixing, coding, debugging, and process improvements.
    - Executed assigned tasks via **ClickUp**, created Pull Requests, and ran pipelines in **Azure DevOps** for continuous integration and deployments.
    - Conducted testing and validations of REST APIs using **Postman** and handled data manipulation in **SQL Server**.
    - Utilized **Git** to manage repositories and ensure effective collaboration in development processes.
